CORE

Old Brandles at New Prices.
IN ANTICIPATION OF HEAVY IMPORTATIONS
peat Spring of the great Vintages of 1857 and 1838, I am indo
to offer all my accumulated stock of
RARE OLD SRANDIES AT
GREATLY REDUCED PRICES, new Brandles, for the best houses in Cognac. These Brandles are guaranteed to be ENTIRELY PURE, and all, new and old, of the VERY FIRST CLASS. BEAUTIFUL WOMEN READ IT!
WIDE AWAKE NATIVES READ IT!!

Unhappy Foreigners find solace in it !!!
"That shrewd Scotchman," "Bonner of The Ledger." reads it very attentively. He even counts the lines in it. In a recent number he found one of the best articles Edward Everett ever wrote. But, he groats in his agony, it was "only twenty-two lines" in length: Impulsive Bonner! Unbappy Bonner!! Anxions Bonner!!! Learn that the policy of The True Flag is to give the "golden grain," not the chaff. Mr. Everett does not insert his advertisements in it—our paper is devoted exclusively to reading matter, but we print his roblest thoughts. Articles from his pen adorned our columns probably before Mr. Bonner was aware that such a man lived.

THE TRUE FLAG,

READY TO-DAY, Contains FOUR ORIGINAL TALES, by four of the best authors in this country; with more plot, incident and good writ-ing in each story than can be found in any long winded novellete. "continued" for three mouths in a blood and thunder sheet, which requires hundreds of columns of advertisements, and a constant meddling in the affairs of more respectable journa's, to keep it alive

Single copies, 4 cents. Sold by all the newsmen and periodica

Five Points House of Industry.

A CARD.

We are frequently called to account in the following manner:
Some one cais at the Institution and says. "We sent you, Sir,
a domaion of provisions (or money) on such a day, but you did
not acknowledge it."

Our explanation in most cases is this: There are two Mission
Houses at the Five Points; our building is called House of Industry (Mr PEASE'S), the other building is called House of Industry (Mr PEASE'S), the other building is called House of Inbution should direct it to "Five Points Mission, N. Y," iwould sor reach Mr. PEASE's institution, but would go to the
Methodist institution, and of course we could not acknowledge
its reception, because the two house share no connection. Donations intended for us should be directed. "L. M. PEASE, or B. R.
Barlow, House of Industry, N. Y. "Grateful for the liberality
of our friends, we feel bound in justice to them and to ourselves
to make this statement.

B. R. BARLOW, Superintendent. TWO WAYS TO WEDLOCK. SEE HOME JOURNAL, JANUARY 1, 1866.

PUMPING ENGINES.—The subscriber is pre-A pared to furnish Calorio Engines for pumping purposes, en-tirely safe and exceedingly economical. He is permitted to publish the following letter from a gentleman who has had one

tirely safe and exceedingly economical. He is permitted to publish the following letter from a gentleman who has had one in use for eight months:

In use for eight months:

THE UALORIC ENGINE.

John B. KITCHING, ESQ.—Dear Sir: As a resident of Murray Hill, and a property holder there. I take great piesaute in thanking you for the introduction of Ericewon's Coloric Engine. It is moves the only drawback upon the value of property, and the convenience of residence in this neighborhood. My touse is on the very summit, at the corner of Birth et and Madison av., and the space through which water must be raised to the taok is 74 feet, I had numerous household annoyances as long as I was obliged to have the water pumped; annoyances that I will not dwell upon, but of which dill my neighbors must have had personal experience. All these, however, have been removed by the Colorio Equine, which has been in successful operation in my house, for pumping spulled the better part of a dav's work for an atle-boried man. With all this I was cometimes obliged to make the little Colorio pumper does the work in shout hair an able-boried man. With all this I was cometimes obliged upon the house servants, or be smort of the required suppy. But the little Colorio pumper does the work in shout hair an hour a day, at no expense of sinews, and with no grumbling and hard looks, while I am sure to have no lack of water. It respect, and the amount of fuel required to run is not worth mentioning. I look upon the Calorio Engine as a matter of necessity for all house serpers who have any pumping to do; and if can at any time say or do anything tailed in communicate the result of my experience to the public, or particularly to those who are sufferng the same amonyone for want of water, they may the same amonyone for want of water. He can at any time say or do anything that will communicate the result of my experience to the public, or particularly to those who are sufferng the same amonyone for want of water.

They may be seen in operation at Mes
